*Curb Cut Location

**Sidewalk/Alley/Street Repair

Location_____

*All curb cuts must be marked on the curb and must not exceed 30 feet. The curb cut must access the driveway with a dimension of 9 feet wide and 20 feet in length, it also must be completed with a hard surface within 2 years.

**All excavations of any Village public place (sidewalk, alley, street, etc) must first acquire permission from the Village. All excavating must be repaired to its original condition within 10 days after restoration is possible. After 10 days the Village may restore the surface and charge the cost thereof to the permittee. Barricades and lights are required during excavation to protect persons and property.
